To gain a position that enables me to develop my career in a fast-paced, technological environment and be given the opportunity to learn from my peers in a supportive team.

## Experience

*Intern Developer*

IOOF Holdings Limited | Feb 2020 - March 2020

- Co-developed a dynamic prototype using micro-frontends and mocked backend.
- Followed SCRUM agile processes to keep track of progress across sprints.
- Understand the business domain to ensure prototype meets the businesses demands.
- Use of internal component libraries to ensure consistency between company products.
- Ensure high test coverage across project to achieve maintainable and reusable code.

*Real Estate Receptionist*

Hayden Real Estate | Jan 2019 - Aug 2019

- Answer telephones and give information to callers, take messages or transfer calls to appropriate people.
- Open, read, route and distribute incoming mail and answer routine letters.
- Plan and schedule routine inspections for rental properties.

*Pharmacy Assistant*

Chemist Warehouse | Jan 2017 - Dec 2018

- Receive prescriptions or repeats and verify that information is complete and accurate.
- Assist customers with locating items, answering questions, or referring them to the pharmacist for more information.
- Order, label and count stock of products and enter inventory data into computer.

*Shift Manager*

McDonalds | April 2015 - Jan 2017

- Supervise day to day operations of the business
- Monitor food preparation methods, sizes and presentation of food to ensure that food is prepared and presented in an acceptable manner.
- Schedule and receive deliveries, checking delivery contents to verify product quality and quantity.
